Design & UI/UX

- Figma
- Adobe Photoshop
- Adobe Illustrator
- UI/UX Designing

Productivity & Tools

- MS Office (Word, Excel, PowerPoint)
- Data Entry
- Typing Speed — 60+ WPM
- Generative AI Tools

Soft Skills

- Problem Solving
- Time Management
- Multitasking
- Remote Collaboration

Other

- Research & Data Gathering
- Technical Troubleshooting

LANGUAGES

English — Professional working
proficiency

Urdu — Native

PROFILE

Graphic Designer & multi-skilled remote assistant who turns ideas into real, working interfaces — not just mockups. 3+ years combining sharp visual design (Figma, Photoshop, Illustrator, UI/UX) with fast, accurate execution (60+ WPM typing, MS Office, data entry) and modern AI-assisted workflows. Designed four end-to-end UI/UX case studies spanning finance, trading, food delivery and streaming, viewable in a live, interactive portfolio. Currently full-time at Catalyst IT Solutions and ready for the next challenge.

EXPERIENCE

Graphic Designer | Multi-Skilled Remote Support

Catalyst IT Solutions — October 2023 – Present

- Designed and shipped UI/UX work end-to-end using Figma, Photoshop and Illustrator — from concept to a live, working prototype
- Typed and processed high volumes of data at 60+ WPM without sacrificing accuracy, under real deadlines
- Ran daily work through MS Office and generative AI tools to move faster without cutting corners on quality
- Trusted to work unsupervised — researched, troubleshooted and delivered independently while juggling multiple priorities at once

EDUCATION

BS — Virtual University of Pakistan (Continuing)

Enrolled Jan 22, 2026 – Present

Intermediate — Superior College Muridwala

A Grade • 2022

FEATURED PROJECTS

Four end-to-end UI/UX case studies — each taken from concept to a working, interactive prototype:

- **Wealth Street** — *Finance & Investment App*
- **AHL NxG** — *Stock Trading Platform*
- **Yumio** — *Food Delivery App (Concept Project)*
- **StreamX** — *Movie & OTT Streaming App (Concept Project)*

WHY WORK WITH ME

- One of the few candidates who can design the interface and enter the data behind it — equally sharp with Figma and a spreadsheet
- Uses generative AI as a daily tool, not a novelty — to move faster on research, drafting and design without losing quality
- Works independently and hits deadlines with zero supervision — proven across 3+ years of fully remote work
- Has a live portfolio to prove it, not just a list of claims

TOOLS & SOFTWARE

Figma · Adobe Photoshop · Adobe Illustrator · Canva · Microsoft Word · Microsoft Excel · Microsoft PowerPoint · Generative AI Tools (ChatGPT & similar) · Google Workspace

AVAILABILITY

Available for full-time remote roles and freelance projects — flexible with time zones and open to long-term collaboration.
